

Medium Term Planning for P4C

Year 1

These plans are designed to be flexible to fit in with each class' individual curriculum. The suggested concepts to be covered link with units of work being taught in other areas of the curriculum, the idea being that P4C will then underpin and strengthen the learning in these areas, and help the children create links between the knowledge and concepts they have covered. Key dates are included for reference; not all key dates need to be covered and may not be appropriate in all classes. Certain agreed key dates must be covered, and staff will be informed about this beforehand.

Concepts are designed to take two or three sessions each to allow for deeper understanding and richer discussion. Questions have been suggested to give teachers ideas about where they may like to focus the class discussion, in order to ensure that it links with other areas of the curriculum. Possible resources/stimuli are also suggestions and staff may choose to use these or something more appropriate, at their discretion. The main concepts to be covered are in blue, the concepts in pink are ones which may come up as part of a discussion, or which staff may choose to focus on as part of the discussion.
